Jl H.Muin 1 Kec. Cimanggis, Kota Depok

Information Systems graduate with interests in Web Development, IT Support, and Cybersecurity. Experienced in developing responsive websites using HTML, CSS, JavaScript, PHP, and MySQL, as well as supporting IT operations through troubleshooting, system administration, and network monitoring. Currently enhancing cybersecurity skills through hands-on labs and training focused on threat detection, log analysis, and incident response. Eager to contribute and grow in roles related to Web Development, IT Support, System Administration, or SOC Operations.

Work Experiences

PT. Lawu Cakra Sarana - Depok	Jan 2023 - Dec 2023
<i>IT Support</i>	
• Provided technical support for Windows-based PCs, laptops, printers, and network devices. • Troubleshoot hardware, software, and network connectivity issues to minimize operational downtime. • Managed user accounts, access permissions, and application support for end users. • Monitored network performance and system availability to maintain business continuity. • Supported endpoint security through antivirus management, operating system patching, and routine security maintenance.	
PT Kakha Berdaya Bersama - Jakarta, Indonesia	Jan 2026 - Mar 2026
<i>Warehouse Administrator</i>	
• Received and verified returned goods to ensure accuracy and completeness. • Inspected returned items for damage, defects, and shipment discrepancies. • Updated and maintained inventory records using Microsoft Excel and ERP systems. • Classified returned products as resalable, repairable, or rejected items. • Coordinated with relevant departments to ensure efficient return processing. • Managed product returns to suppliers and monitored return status. • Prepared inventory reports and conducted stock audits to maintain inventory accuracy.	

Education

SMAN 13 DEPOK - Depok, West Java, Indonesia	Jul 2014 - May 2017
Universitas Gunadarma - Jakarta, Indonesia	Aug 2018 - Mar 2023
<i>Bachelor of Sistem Informasi, 3.17/4.00</i>	

Project & Organisation

FIKTI Faculty Futsal Club - Depok	Nov 2018 - Nov 2021
<i>Member</i>	
• Actively participated in faculty-organized internal and external events. • Supported the execution and coordination of organizational programs and activities. • Engaged in regular weekly futsal training and team-building activities.	

Web Development

- Designed and developed a web-based food and beverage ordering application to streamline the ordering process and improve user experience.
- Implemented key features including menu catalog management, online ordering, user authentication, and administrative controls.
- Built the frontend using HTML, CSS, and JavaScript, while integrating a MySQL database to manage customer, menu, and transaction data.

Websites Project - Depok

Feb 2024 - Jul 2024

Web Development

- Developed and maintained responsive websites for cryptocurrency projects using HTML, CSS, JavaScript, and React.
- Designed modern and user-friendly landing pages to enhance user engagement and accessibility.
- Integrated third-party APIs to display real-time cryptocurrency pricing and market data.
- Collaborated on presenting project information, token utilities, and ecosystem updates through web-based platforms.

Skills & Certification
